

Web Design

Web Site Design Services

Everybody needs a Web site. And practically anybody can put one together for you. But that's not enough to be a business success.

Focal Technology enables companies like yours to seamlessly integrate their entire business with the Internet. We can build a comprehensive solution with everything you need—Web site design, graphics and e-business applications. If you already have a piece of the puzzle—a shopping cart program, or a design concept—we can build the rest of your site around it, to be compatible with a unified look.

Hosting

Focal Technologies can provide a home for your site. We'll host it, manage it and update it as you need. Several service plans are available offering substantial discounts.

Online Shopping Cart

Apparel Easy Shop, our comprehensive shopping cart is a complete storefront-on-the-Web solution you can use to launch your company online, or help grow your online business with ease.

Mobile Access

Focal Technology can enable your Web site to be accessible to the expanding world of tech-savvy users surfing with handheld devices and cell phones.

Get the Focal Advantage

- Expert — Our trained, experienced staff of graphic artists and Web designers will create a professional, attractive site to fit your business and branding needs.

Results -- Your project will stay on time and on budget because we use a time-based project management system.

Easy — Web-based site management lets you manage and update your site from anywhere at any time.

Economical -- We provide both graphics and commerce components, so you don't need two different vendors to build your site.

Flexible — Choose from a variety of web design, development packages and e-commerce solutions to fit your business.

Convenient — It's easy to get the job done when you only have to make one phone call to Focal Technology.

Integrated -- We can link your Web site to your accounting system and integrate the two so your commercial and financial data can be updated regularly and quickly.

Centralized -- We can centralize your site into one easy-to-use management system, and handle your needs for Web hosting, HTML creation and E-commerce services.

Dependable -- You get the quality that only comes from having Microsoft Certified Programmers working for you.
