

AIMS

AIMS is a complete order and production processing system for apparel manufacturers, wholesalers, importers and distributors. AIMS is a developer and leading provider of apparel software solutions to all segments of the sewn products industry. Our software system is used as a major management tool in the manufacturing of apparel, accessories, footwear, and home furnishings. We offer solutions for almost every size firm, from large to mid-sized companies. For almost two decades AIMS has helped hundreds of small and mid-sized apparel companies grow to become large multi-million dollar companies. [Click here for more information](#)
